

A Message from the Chairman.....

Our committee and the City of Salem are proud to be working together to create a park on the former Sweney's Drug Store site. Sweney's and nickel cokes were a Salem mainstay for generations. We hope to honor those memories from the past by creating a park setting on the corner that will become a source of pride for future generations.

The open design invites people to walk through the gardens and to sit and enjoy the fountain and the plantings. The feature wall takes you back to the '50's with a 12' x 40' mural looking into Sweney's Drug Store.

We will continue to solicit donations to fund the corner project and the mural. The public support from individuals, organizations and corporations has been essential to this task. The more \$5 to \$500 donations we receive, the more plantings and features we will be able to include in the design. Anyone who wishes to make a tax deductible donation to the Sweney Corner can contact Bev West at City Hall or any committee member. Make donations payable to the City of Salem.

Again, we thank all of you who are interested in this project and who help us reach our goal. We appreciate your interest, suggestions and support.

Jeannell Charman
Sweney Corner Committee Chairman
